

Status Bar

This screenshot shows the Xcode IDE interface with several key components highlighted by colored overlays:

- Document Outline:** A red overlay on the left side of the main workspace, showing a hierarchical tree of the project's structure.
- Interface Builder:** A pink overlay in the center, displaying a visual representation of a mobile device interface with a white rectangular area.
- Code Editor:** An orange overlay on the right side, showing Swift code for a `ViewController` class.
- Inspector Pane:** A blue overlay on the far right, displaying various configuration options for the selected view.
- Debug Pane:** A green overlay at the bottom, showing the console output and debugging tools.

The top status bar indicates the current project is "Map of Xcode" and the target device is "iPhone 12". The bottom status bar shows the current target device is "iPod touch (7th generation)".

Debug Pane

This screenshot shows the Xcode Project Settings window for the "Map of Xcode" project. The "General" tab is selected, showing the following information:

- PROJECT:** Map of Xcode
- TARGETS:** Map of Xcode
- Identity:**
 - Display Name: Map of Xcode
 - Bundle Identifier: com.appbrewery.Map-of-Xcode
 - Version: 1.0
 - Build: 1

The right-hand pane shows the "Identity and Type" section, which includes:

- Name:** Map of Xcode
- Location:** Absolute
- Full Path:** /Users/philippmuellauer/Desktop/Development/Map of Xcode/Map of Xcode.xcodeproj
- Project Document:**
 - Project Format: Xcode 9.3-compatible
 - Organization: (empty)
